

Environmental Policy

Blagden Specialty Chemicals Limited believes that protection of the environment is an integral part of good business practice and that it has a duty to satisfy itself that all its operations are conducted with proper regard for the environment.

The Company is committed to preserving, and wherever possible, improving the quality of the environment for customers, people who work in the Company, our neighbours, and the wider community.

The Company seeks to make efficient and effective use of all resources and encourages all its stakeholders; suppliers, employees, customers and contractors, to develop an ecologically sound approach to their activities.

The objectives of the Company's policy are

- to make all employees aware of their effects on the environment, and to ensure they receive the necessary instruction and training to enable them to understand the policy and to contribute effectively to its operation.
- to conduct our business in a way which protects the environment; by the prevention of pollution, conservation of energy, water and other resources, and by the reduction of waste.
- to comply with, or improve upon, relevant environmental statutes and guidance and, in general to follow best environmental practice.
- to adopt, wherever practicable and affordable, methods of working which eliminate or reduce, directly or indirectly, harmful releases to air, land or water, and to respond quickly and effectively to environmental incidents should they occur.
- to set targets, with measurable goals, for improvements in performance.
- to monitor and review performance against set targets and against the requirements for compliance with environmental legislation and to strive for continuous improvement.

Blagden Specialty Chemicals Limited is committed to the Responsible Care Programme of the Chemical Business Association and its Guiding Principles.

The Board of Directors of the Company are ultimately responsible for the achievement of the Company's environmental objectives and Senior Managers are responsible for the implementation of this policy.
