

Sustainability Policy

Blagden Specialty Chemicals Limited are committed to operating our business in a safe, responsible, and sustainable manner. This Sustainability Policy outlines our approach to minimising environmental impact, reducing resource consumption, and supporting the transition to a low-carbon, circular economy, while maintaining full compliance with all COMAH and environmental regulations.

It covers environmental protection, energy and resource efficiency, emissions management, and sustainable procurement.

We commit to the following sustainability principles:

- Comply with all relevant environmental legislation.
- Seek continuous improvement in environmental performance beyond compliance.
- Operate all processes to prevent or minimise pollution of air, water, and land.
- Monitor energy and water use throughout the business.
- Follow the waste hierarchy: Reduce, Reuse, Recycle before disposal.
- Endeavour to work with suppliers who share our environmental and ethical values.
- Train all employees in environmental awareness and emergency response.

This policy applies to all operations, staff, contractors, and visitors.
